## Help protect your family, lifestyle, and finances with Critical Illness Insurance.

When a critical illness strikes, you should be focused on your health, not your finances. Unfortunately in too many cases, illness is only part of the battle. Things like lost income, medical deductibles, out-of-network office visits and uncovered treatments can contribute to financial hardship for many families. With Critical Illness insurance, you can supplement benefits beyond your medical plan with coverage you and your family can rely on.

### Did you know?

- The odds of developing cancer in a lifetime are one in two for men and one in three for women.<sup>1</sup>
- About every 40 seconds, someone in the U.S. will suffer a heart attack.<sup>2</sup>
- About one-third of Americans struggle to pay their medical bills, including those with insurance, while 27% delay or skip getting the health care they need due to cost.<sup>3</sup>

# Financial support when you need it the most.

Critical Illness insurance offers essential benefits when you need them most. It provides a lump-sum payment when you're diagnosed with a serious disease to help ease the strain on your finances so you can focus on recovery. You can't predict a critical illness like cancer or a heart attack, but you can be prepared and help protect a better tomorrow for yourself and your family.
