

# Your health insurance has out-of-pocket costs.

LifeSecure can help - *with cash benefits!*

**Meet Mike** Follow his story and consider if additional protection is right for you.

At 37, Mike likes to stay active by playing sports in local rec leagues and with his friends on weekends. His health insurance has a \$4,000 annual deductible, which he has paid down to \$2,000 so far this year.

He also recently purchased LifeSecure's Hospital Indemnity Insurance, which **provides cash benefits** for each day he's in the hospital, up to the number of benefit days selected.

Mike breaks his leg while playing soccer. He spends 5 days in the hospital to begin his recovery. His health insurance pays most of the hospital charges, but he's responsible for the \$2,000 left on his health plan deductible.

## Here's how Hospital Indemnity coverage helped Mike pay his hospital bill.

Mike's Hospital Indemnity plan has a **\$400 Daily Benefit Amount and 10 benefit days** per period of confinement, which aligns with his health coverage to extend his protection for around \$26 a month.

After his 5-day hospital stay, Mike received a cash benefit of \$2,000 from LifeSecure, which was enough to pay his deductible! Plus, since he added optional coverage enhancements to his Hospital Indemnity plan, he'll receive additional financial support for his emergency room visit, hospital admission, and rehabilitation appointments.

### One more thing!

Since Mike was hospitalized for just 5 days, he has 5 more benefit days remaining in his current 10-day confinement period. And since benefits renew an unlimited number of times, his available benefit days will reset to 10 once he has been out of the hospital for 60 days in a row - *meaning his coverage will be there to protect him again in the future!*
