## Affordable insurance to assist in your recovery.

Your medical plan provides benefits to help with medical costs resulting from an inpatient hospitalization or treatment in an observation unit. Once you leave the hospital, you shouldn't have to worry about financial setbacks that you didn't expect during your recovery. Things like medical deductibles and copayments, plus the cost for help with transportation, meals, child care, or even housekeeping can all add up. Hospital Indemnity Insurance provides cash benefits based on your time in the hospital, regardless of any other insurance you have.

Pair it with your medical plan to extend your protection and help with unexpected costs so you can focus on recovery.

- **ADULTS AGES 18-64:** Select coverage to help cover your medical plan's deductible and other expenses following a hospital stay.
- **SENIORS:** Cash benefits can be used to cover your Medicare Advantage hospital copay and help with other out-of-pocket costs. *Note: You must apply for coverage before your 65th birthday.*

In 2020, the average cost of a hospital stay in the U.S. was \$18,400 (for adults ages 45-64).<sup>1</sup>

**Hospital Indemnity Insurance provides CASH BENEFITS directly to you, which can be used to pay your medical deductible and copayments, or anything else needed during your recovery.**

# How might you use your Hospital Indemnity cash benefits? You decide.

Hospital Indemnity benefits are paid directly to you following a qualified inpatient hospital stay or treatment in an observation unit. How you use your benefits is up to you! Examples include:

- Medical deductibles, co-pays or co-insurance
- Home care assistance
- Rehabilitative services
- Child care
- Housekeeping help
- Lost wages while away from work
- Transportation to/from appointments
- Yard work
- Anything else!

# Pick from a range of benefit options.

**Eligible Issue Ages:** 18 through 85. This policy is guaranteed renewable for life.

- For applicants ages 64.5 until you turn 65 - no medical questions or build chart
- All other ages - simplified underwriting

## ◆ STEP 1

**Daily Benefit Amount** Choose an amount between **\$100** and **\$900**, in \$10 increments.

## ◆ STEP 2

**Hospital Confinement** Choose **3, 6, 10** or **21** days  
*Days reset once out of the hospital 60 days in a row*

The Daily Benefit Amount represents the cash benefit payable to you for each day you or a covered family member are confined to a hospital as an inpatient, up to the number of days you select.

### **Hospital Confinement Indemnity Benefit:**

If you are admitted to a hospital as an inpatient, we will pay you a cash benefit equal to your Daily Benefit Amount for each day of your hospital stay, up to the number of days you select. Multiple hospital stays will accumulate toward your day count. Once you have been out of the hospital for 60 days in a row, your available number of days resets to the number you selected.

If you exhaust your number of hospital days selected, an additional cash benefit of \$50 per day will be provided - up to a maximum of 31 days per period of confinement

# How is your Hospital Indemnity benefit calculated?

You will receive a cash benefit payout equal to your Daily Benefit Amount for each day of your hospital stay, up to the number of days you select.

In the example below, Angie selects a Daily Benefit Amount of \$500 and 6 days per period of confinement, plus both optional benefit riders:

- Lump Sum Hospital Admission (\$1,000 option)
- Rehabilitation or Skilled Nursing Facility for Days 1-20 (\$200 option)

See page 7 for rider descriptions

## Benefit Payout Example

Angie loses her balance and falls in the shower, breaking her shoulder, collar bone and elbow.

She calls 911 and an ambulance transports her to the emergency room of a nearby hospital where she is evaluated and scheduled for surgery.

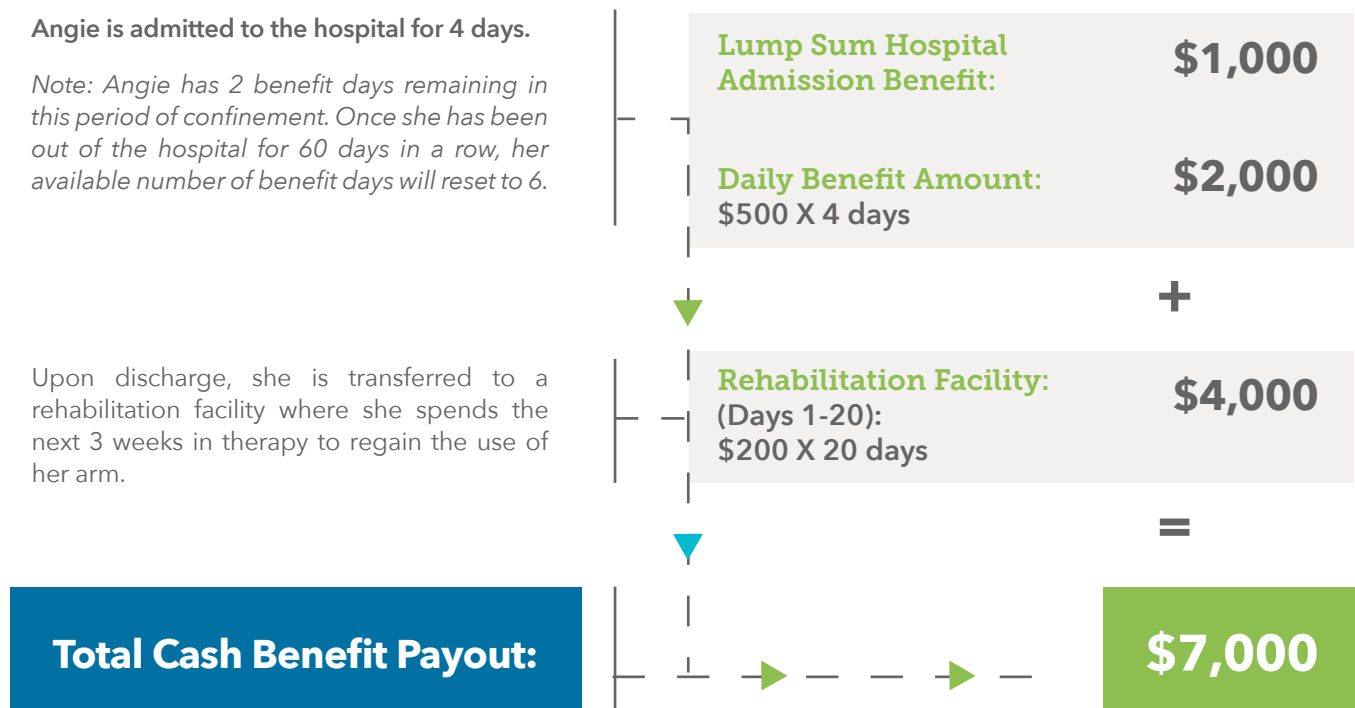

Angie is admitted to the hospital for 4 days.

Note: Angie has 2 benefit days remaining in this period of confinement. Once she has been out of the hospital for 60 days in a row, her available number of benefit days will reset to 6.

Upon discharge, she is transferred to a rehabilitation facility where she spends the next 3 weeks in therapy to regain the use of her arm.
