# Affordable insurance to assist in your recovery.

Your medical plan provides benefits to help with medical costs resulting from an inpatient hospitalization or treatment in an observation unit. Once you leave the hospital, you shouldn't have to worry about financial setbacks that you didn't expect during your recovery. Things like medical deductibles and copayments, plus the cost for help with transportation, meals, child care, or even housekeeping can all add up. Hospital Indemnity Insurance provides cash benefits based on your time in the hospital, regardless of any other insurance you have.

Pair it with your medical plan to extend your protection and help with unexpected costs so you can focus on recovery.

- **ADULTS AGES 18-64:** Select coverage to help cover your medical plan's deductible and other expenses following a hospital stay.
- **SENIORS AGES 65-85:** Cash benefits can be used to cover your Medicare Advantage hospital copay and help with other out-of-pocket costs.

In 2020, the average cost of a hospital stay in the U.S. was \$18,400 (for adults ages 45-64.)<sup>1</sup>

**Hospital Indemnity Insurance provides CASH BENEFITS directly to you, which can be used to pay your medical deductible and copayments, or anything else needed during your recovery.**
